PRESIDENT

# Creating Personal Resorts<sup>®</sup>

Desert Star Construction makes dream homes come to life.

“It’s about creating an environment that’s all about you, every hope and every dream,” says Jerry Meek, President of Desert Star Construction, an esteemed luxury homebuilder of an impressive variety of architectural styles, net-zero and LEED certified homes, and boutique commercial properties in Phoenix, Paradise Valley, Scottsdale, and throughout Arizona. “When you choose Desert Star, you’re choosing unrivaled quality, unsurpassed integrity, and more than 40 years of world-class custom building expertise

and continuous improvement.”

The firm, which coordinates every phase of construction, from first sketches through move in, is successful, in part, because of Meek’s unwavering commitment to client-centric practices. “The way we work, the service we deliver—it’s The DSC Standard,” he explains. “Our goal is to wow our clients and create a positive experience with every project.”

Team DSC® works with the best architects, designers, contractors, and artisans from around the world to ensure

every detail is in alignment. They don’t just show clients blueprints; they chalk out plans in the proper orientation on the actual building sites. Homes are optimized for maximum efficiency, and smart home technologies are standard features. “We want the experience of building your dream home—your personal resort—to be extraordinary,” Meek says. “And we’ll do whatever it takes to make it so.”

**DESERT STAR CONCIERGE<sup>®</sup>** memberships take service to an all new level, providing a complete range of property reviews, maintenance, repair services, and special projects all with a single point of contact.

“We understand that our clients’ time is a highly valuable resource, and to that end, we have developed a simple and effective process through which we deliver the preventative and restorative services necessary to maximize the life of their home’s systems and equipment and their personal enjoyment,” says Jerry Meek.
